Centers LLC

Customer Testimonial

"I have been around the automotive aftermarket for 30 years and have never seen a better resource, partner and now friend in the business.

From our first conversation, you put me at ease that not only I selected the right product but also found the best place to buy it.

I can't say enough about the support and best of all the training! Your training is the best I have ever experienced and now that

I'm back at my shop I feel I'm ready to go.

Your training gave me hands-on experience actually using the tool and the backend knowledge you gave me on how to run the business was fantastic.

I sleep well at night knowing that I have you and your team as a resource when I need it and look forward to sending my techs to your training facility in the future. Thanks again!"
